

## ATTN: Back-Office Managers

The CTE gives your team a safe place to practice using CU\*BASE tools, learn new skills, and experiment with new features without potential harm to your live member data. Because it's a copy of your actual files, both the product configurations and member accounts will be familiar and will behave like they do in your day-to-day environment.

## Along with many other functions, with CTE, your staff can...

- Practice General Ledger Entries
- Practice Accounts Payable Processing
- Practice Credit Union Budget Processing
- Practice Credit Union Investment Processing
- Practice Building/Running Credit Union Financials
- Practice Calc/Post Adjustments for Delinquent Loans
- Practice Month-End Posting Procedures
- Practice Running Back Office Related Reports/Dashboards
