

Adding a Marketing Message to Native Receipts

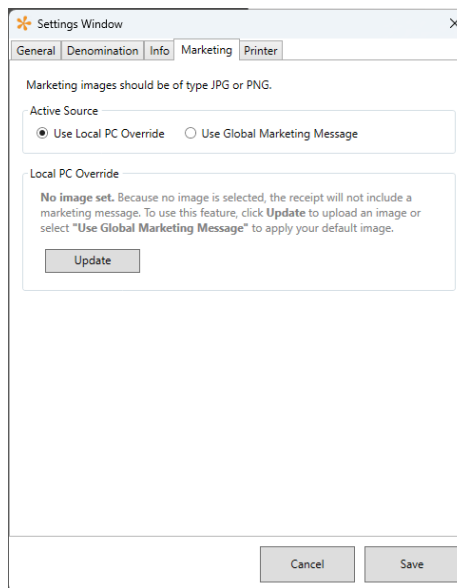

Follow these steps to add or update the marketing message that prints on your receipts.

1. Launch **Native Receipts**.
2. Right-click on **Native Receipts** and select **Settings**.

3. Select the **Marketing** tab, then click **Update Image** to browse your computer and upload a picture of your choosing. You can do this under either of the following options:
 - **Use Local PC Override** — the image will display only on your PC.
 - **Use Global Marketing Message** — the image will update the marketing message on all PCs.

Note: Users will need to select **Use Global Marketing Message** to use this feature.

4. Select **Save**. The next receipt printed will contain the marketing message.

To change or update the image, repeat this process.
